REMARKS

This case has been reviewed in light of the Examiner phone call dated 10 February 2003, wherein the structure claims were elected with traverse in response to a requirement for restriction, and wherein the Examiner noted an incorrect dependency of claims 37, 40, 41, and 44 to method claim 33 instead of structure claim 34. Applicants thank the Examiner for pointing out this error and are faxing an amendment per the Examiner's request.

Respectfully submitted,
